INSECT-A-CLEAR Bower Products Limited

Insect-a-Clear are used in:

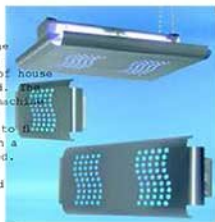

- food production departments
- alimentary stores (meat, bread departments etc)
- silages
- mills
- butcheries
- bakeries
- stables
- dairies
- ranches, farms (removing attack they indirectly increase milkness of cows for 20-30%)
- animal farms
- kitchens
- restaurants, hotels, motels
- summer gardens
- offices
- flats

Insect-a-Clear has modern design and there is an offer of a large number of models specialized for different needs and intends.

Devices with adhesive board

FLY-SHIELDS

The insect-a-clear FLY-SHIELDS range comprises of three models, the FLY-SHIELDS 1, 2 and 4. It is ideal also for conventional high voltage machines. Models 1 and 2 are also suitable for front of flying insects control where discreet management is required. Model 4 is suitable for larger areas where suspending the machine gives a massive 360 sq metre approx coverage. The flying insects are attracted to the special ultraviolet light that is irresistible to them. Once attracted into the FLY-SHIELD they will come to rest on a special adhesive coated glue board and become permanently captured. All stainless steel construction. Board life up to 3 months depending on environmental conditions and infestation.

Specification

	FS 1	FS 2	FS 4
Protected area	Up to 90sq. meters	Up to 180sq. meters	Up to 360sq. meters
Voltage	230 V	230 V	230 V
Total wattage	40	70	120
Blacklight tubes	1x18W LYNX	2x18W LYNX	4x18W LYNX
Height (cm)	25	25	47
Width (cm)	34.5	58.5	65
Depth (cm)	11.5	14	14
Weight (kg)	4	6	10

GLU 60

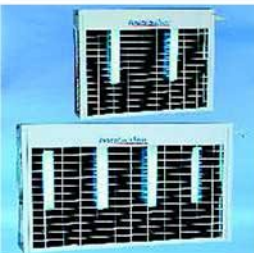

Ideal alternative to the conventional machines. This method is widely present and recommended by experts for environmental protection and those responsible for the safety of objects. Flying insects attracted to the GLU 60 by two 15W UV lamps - irresistible for insects. On the GLU 60 lamp they take rest on the special glue board and they get caught. Glue board is easy to change when it gets full.

Note: This kind of lamp has protection (against dust and water) necessary for the HACCP certificate.

	GLU 60
Protected area (m ²)	60
Voltage	230 V a.c.
Total wattage	40
Blacklight tubes	2x15 W x 18"
Height (cm)	25.5
Width (cm)	1.5
Depth (cm)	23
Weight (kg)	5

FUSION

The Insect-a-clear FUSION range comprises of two models, the Fusion2 and Fusion4. It is ideal alternative to conventional high voltage machines. Unlike other insects control machines, the Fusion4 has many features that make maintenance quick and simple. Stainless steel retaining plates simply lift open to allow glue boards to slide from its position and the replacement board will slide in as the time comes to change the lamps, the front can be removed without the need of any tools. With its unique 'through board light technology' all the lamps can be seen from the both side of the machine, thus giving maximum attraction to flying insects.

	F2	F4
Protected area (m ²)	100	280
Voltage	230 V	230 V
Total wattage	70	140
Blacklight tubes	2 x 18 W LYX	4 x 18 W LYX
Height (cm)	38	38
Width (cm)	51	66.5
Depth (cm)	9	13
Weight (kg)	4.5	7

Devices with high-voltage net

T95 - IP X5

The Insect-a-clear T95 is designed for work in moist rooms where often machine wash causes water splash. This model can, after plugging out, be washed with water because it has IP X5 protection degree. It is suitable for mounting on the ceiling, and can be placed on the table. It has been tested to British and European standards, and is made of stainless steel.

	T95-40W
Protected area (m ²)	do 120
Voltage	230 V a.c.
Total wattage	75
Blacklight tubes	2 x 20 W x 24"
Height (cm)	28.5
Width (cm)	72
Depth (cm)	15
Weight (kg)	7.5
